

Environmental Statement

Contact Originators Ltd is committed to reducing its impact on the environment. Our aim is to work towards setting achievable operating targets while ensuring we strengthen our sustainable practices within the business and strive for continuous improvement by:

- Working towards complying with all applicable legislation and regulations and helping our customers and suppliers to meet their own targets by sharing ideas, promoting efficiency and waste reduction, identifying options and implementing achievable and sustainable changes.
- To continuously improve energy efficiency and waste minimisation by reducing the quantity and impact of waste produced whilst operating within best practice guidelines
- We will commit to a programme of supplier audits to ensure that the duty of care is consistent throughout our chain of supply.
- To prevent pollution by ensuring that the recognised Waste Hierarchy strategy is applied to all areas of our business.
- Provide a framework for setting and reviewing environmental objectives and targets.
- Raise employee awareness of waste minimisation by encouraging a culture of staff involvement and introducing a programme of training.
- We will actively promote open discussions with interested parties in relation to our environmental commitment.
- We will direct our efforts absolutely but not exclusively within the areas of chain of custody, water usage, health and safety, sustainable sourcing, community involvement and waste minimisation.
- We will work towards reducing our CO2 emissions in conjunction with our energy suppliers.

Our target is to produce measurable data to re-enforce our commitment to an environmentally acceptable and sustainable business venture within our local community and to the wider global community.
