

Sustainability Statement

Contact Originators strives to be one of the best within our fields and to work towards producing products for a better planet.

Our approach to business is guided by commitments to the following principles.

- Human rights
- Environmental
- Labour
- Anti-Corruption

Our business faces many challenges and opportunities and due to their direct impact on this business we have prioritised the following issues that need to be addressed.

People, Health & Safety, Climate Change, Waste & Energy Use

Contact Originators commits to minimise environmental impacts in the areas of climate change, waste and energy, where possible. We will help to support the efforts of colleagues and invest in training. We will encourage voluntary work within the local communities and donate resources where possible. We will ensure our approved supply chain has responsible, social and environmental practices and are committed to minimising the impact of their operations and align themselves with Contact Originators' Code of Conduct.

Contact Originators will hold senior management reviews, which will be held at least once per year to ensure objectives are set, measurable and achievable.
